

# Cynanchum Atratum Extract (DERMA-CLERA™)

Strengthens skin barrier and improve chronic inflammatory disease

## Ingredient that lowers skin heat

Cynanchum Atratum has been used as a medicine to reduce consumptive fever since ancient time cools the heat in the skin heated by hot summer sunlight and help sooth sensitive skin.

## Strengthens skin barrier

It strengthens the skin barrier through normalization of Keratinocyte and reduces inflammatory response by inhibiting cytokine components manifested by stress.

## Sinapic acid

It is phenolic compounds found mainly in berries and it has antioxidant, anti-inflammatory, anti-cancer and anti-hair loss effect.

\* Limited to the characteristics of raw materials, Not the product itself.
