

## About INOOM

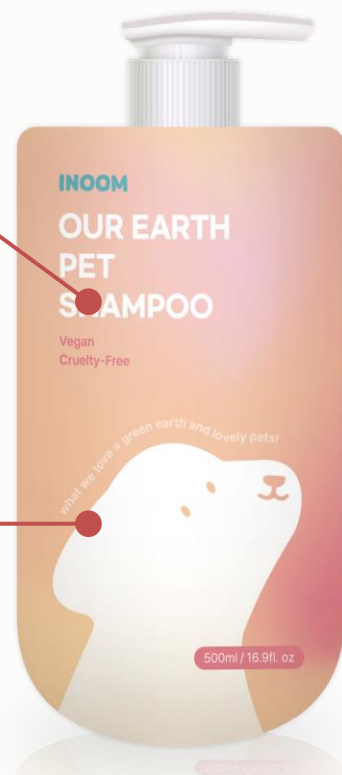

**Eco-friendly packaging for the earth where our troublemaker,  
INOOM and we live together.**

### 100% PCR Bottle

PCR, short for post-consumer resin (post-consumer recycled), is an environment-friendly packaging option that is made from recycled plastics.

### Removable Label

The perforation line makes a label removed easily.

### FSC Certified Paper

Paper from FSC-certified forests and recyclable Raw materials.

### SOY-INK Print

Ink with a high percentage of vegetable oil is known as an eco-friendly ink which is biodegradable upon disposal.
